

Kulka® Military Class Marking Strips

Marking Styles MSA, MSB, MSC

Top Surface of Marking Strip

Bottom Surface of Marking Strip

Requirements:

- Type Mount: Bottom Only
- Dimensions: See Below
- Material: Type GME
- Marking: Marking Strips shall be Marked in Accordance with CID A-A-59125 (can be provided to MIL T55164)

A single letter shall be inserted in the above type designation to specify the marking style (A, B or C).

Both the front and the back of the marking strips shall be marked as indicated. The numbers shall be marked at a $45 \pm 2^\circ$ angle with reference to the side of the marking strip, as indicated.

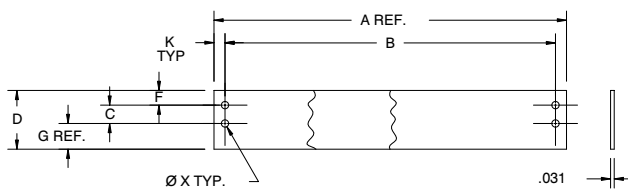

Type MSC37TB (blank single sided marking strip) shall have the same dimensions as type MSA.

Series	Style	Dimensions							
		C	D	F	G	K	W	X	N*
37TB	MSA, MSC	0.31	1.19	0.28	0.60	0.14	0.13	0.16	0.88
40TB	MSB		1.50	0.59	--				
38TB	MSA, MSC	0.42	1.50	0.34	0.69	0.16	0.13	0.18	1.13
41TB	MSB		1.75	0.67	--				
39TB	MSA, MSC	0.50	1.63	0.41	0.75	0.20	0.13	0.21	1.31
42TB	MSB		2.00	0.69	--				

*N dimension to replace D dimension for insulator strips
 **Consult Customer Service on marking strips that are for terminal blocks with Z lugs.

For overall lengths, reference appropriate terminal block series A & B dimensions
