

January 19, 2017

PRODUCT OBSOLESCENCE ANNOUNCEMENT

Due to diminished demand, Marathon Special Products is eliminating the "3780" screw option for our 672 GP and 672 RZ series terminal blocks. This is a #8-32 BRASS, Philips-slotted screw with wire clamp.

We will continue to offer this type of screw in our STEEL versions, which are the "3786" and "3787" options.

This change is to take place effective January 20th, 2017. Any order for product after January 20th, 2017, is subject to review and may be rejected should we not have the necessary components to complete the order.

Feel free to e-mail or contact me with any questions about this change.

Kind regards,

Lisa Laberdee
