PRODUCT CHANGE ANNOUNCEMENT

Marathon Special Products is announcing a minor change the construction of our Reinforced Class R Fuse Holders at 60 Amps and 600 Volts. The Reinforced R Class Fuse Holders will now use a Philips drive screw instead of the old one-way style screw. This is only a cosmetic change as this screw is not part of the wire or fuse termination. This modification will better anchor the clips to the block and it simplifies the manufacturing of this product due to it not requiring a unique screw.

| MSP Catalog Part Numbers Affected | | |
|-----------------------------------|------------|------------|
| 6R60A1B | 6R60A2B | 6R60A3B |
| 6R60A2B 2 | 6R60A3B 2 | 6R60A3B 18 |
| 6R60A3BCU | 6R60A3B 46 | |

Please feel free to email or call with any questions regarding this product modification.

Thank You,
