

March 1st, 2021**PRODUCT CHANGE ANNOUNCEMENT**

Marathon Special Products is announcing a change in the design of the molding for our **Class H Fuse Panel Fuse Holders**. This product change is due to new tooling needed to maintain the product line, as well as utilizing a sustainable/recyclable material for the insulator base. This will be a running change that has **no effect on part numbers or agency certification**. The only rating change is the *relative temperature index* (RTI) rating of the insulator material noted below. This new, lower rating is still equal to or better than many other components utilized in the same panels these are used in today, and 50°C higher than what most industrial control panels are approved to operate at (75°C).

Change Overview:

	Old Version	New Version
Insulator Material	General Purpose Phenolic	Thermoplastic, Glass filled Polycarbonate
Insulator RTI Rating	150°C	125°C
Insulator Surface Finish	Semi- Gloss	Flat/matte
Recyclable/Sustainable Materials	No	Yes
Robustness	Brittle, low impact strength	Robust, high impact strength
Weight	Baseline existing models	25% reduction (average)
Other Component Materials	Same	
Dimensions (LxWxD)	Same	
Catalog Numbers	Same	
UL File Numbers	Same	

Old Design (RH42QB)**New Design (RH42QB)**

This will be a running change with no variance to the part numbers or ratings.

Products will be converted to the new design around early June 2021, but will vary depending on when production tooling is in place, when inventory is depleted and the first time a particular version is manufactured.

Catalog Numbers Affected:

RH20B	RH42QB 5	RH40B2L 73331
RH20QB	RH42QB 74024	RH40QB 5
RH21QB	RH42B2F	RH40QB 74025
RH30QB	RH42Q2F 72584	RH41Q2F
RH30B3L 72506	RH42C2F	RH30BD
